

Brokerage Services

Available to Oregonians with I/DD in all 36 Counties

Oregon's developmental disabilities system is built on choice - and you have choice of where you receive case management services from. For nearly two decades, community-led Brokerages have helped families and Oregonians with disabilities find the resources they need to build full lives in the community. One way we do this is through maintaining small caseloads.

Our programs are governed by people with disabilities and their families and we serve nearly 8,000 people statewide. We'd love the opportunity to serve you and your family!
